

Introducing 2 new blades to the Swann-Morton range

**Always on
target for
Quality &
Precision**

Swann-Morton®

In response to user demand and consistent with their commitment to customer service, Swann-Morton introduce two more No.3 fitment blade options - the 11P and 15T.

The 11P has a long cutting edge combined with a particularly long, fine point, whilst the 15T has a short rounded cutting edge with an angled point.

As with all the No.3 and 4 fitment range, the blades are in carbon steel (sterile or non-sterile) or in stainless steel (sterile). Boxed in 100's (sterile blades individually foil-wrapped; non-sterile sealed in foil packs of 5). Non-sterile blades also available singly packed in peel-open packs, in boxes of 100.

Available also as disposable scalpels.

Whatever their customers requirements, Swann-Morton always aim to please.
