

Swann-Morton®

Made in Sheffield - *Precisely*

THE WORLD'S LEADING SURGICAL BLADE MANUFACTURER

For the perfect 'feel'

Swann-Morton maintains its worldwide reputation for dependability because of its consistent emphasis on quality and innovation.

Playing a leading role in the world's operating theatres, the NEW B3L now offers greater accuracy and 'feel' for Tonsillectomy, Maxillo-facial surgery, plastic surgery and dental surgery.

Lightweight but durable and longer than the standard B3 handle. Offers greater reach and depth of surgical field.

Smooth tapered, ergonomically designed octagonal body offering precise fingertip control. A greater degree of 'feel factor'

B3L Surgical Knife

Surgical Blade No's 6, 9, 10, 10A, 11 11P, 12, 12D, 13, 14, 15, 15A, 15C, 15T, 16, 40.

All handles are individually wrapped. The easily gripped B3 is a light, adaptable stainless handle, supplied individually.
